This talk features two recent graduates of UNIGIS programs: Christopher Hayner from the University of Southern California and Sina Bernhard from the University of Salzburg. Christopher and Sina each produced exceptional work during their Masters studies and were recognized for their distinction by an international review board and were awarded the UNIGIS Academic Excellence Prize. Join this session to hear about their research and how the experience in their academic program has helped advance their career.

Presenters:

Christopher Hayner

Deputy Director of Zoning
NYC Department of City Planning
New York, US

Sina Bernhard

GISystems Specialist
Nextrail
Berlin, Germany

Moderated by:

Darren Ruddell, Ph.D.

Professor and Director of
Graduate Studies,
USC Spatial Sciences Institute
