UNIGIS Study Programmes

Geoinformatics via Distance Learning: Masters and Diploma Programmes

Partner universities in the UNIGIS International Association offer postgraduate Certificate, Diploma and Masters programmes in Geographical Information Science and Geoinformatics. Online distance learning enables in-service professionals to develop and enhance geospatial careers.

BECOME A LEADER
IN GEOGRAPHIC INFORMATION
SCIENCE AND TECHNOLOGY!

Master Programme

(Geographic Information Science and Geoinformatics)

2+ year postgraduate study programme in GIScience for working professionals who want to qualify as project, team or department leaders.

Students will build profound knowledge of concepts of GIScience and applications at a postgraduate level. You can advance your career with an internationally recognized and well established MSc degree at high academic standards.

TAKE THE RESPONSIBILITY
FOR GEOSPATIAL PROJECTS
AND DATABASES!

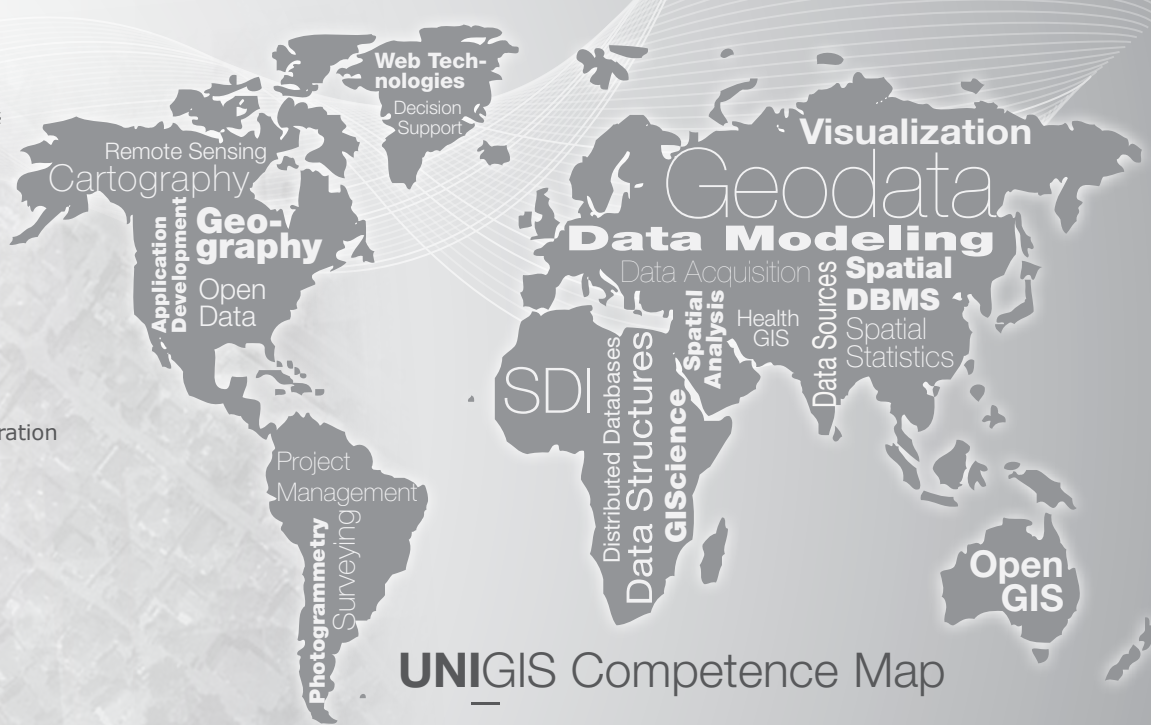

Professional Diploma / Certificate in GIS

1+ year certificate programme for working professionals to efficiently and effectively acquire broad competences in methods and tools of GIS.

Participants advance their professional development in application-oriented skills and develop a solid conceptual understanding of Geoinformatics.

UNIGIS STUDENTS
HAVE A BACKGROUND IN
A GEOSPATIAL DISCIPLINE
LIKE

- Transportation
- Utilities
- Spatial Planning
- Natural Resources
- Agriculture, Forestry, Mining
- Environment Sciences
- Urban and Regional Planning
- Government – Public Administration
- Public Health
- Public Safety
- Security
- Disaster Management
- Business – Geomarketing
- Real Estate
- Insurance
- Tourism
- ... and many more

UNIGIS Competence Map

What is UNIGIS?

The UNIGIS International Association is a global network of universities co-operating in the design and delivery of distance-learning in GIS.

The UNIGIS programme was founded in 1990 and is offered to students on all continents. At present over 1500 professionals from all over the world are following the UNIGIS programme.

University of Salzburg, Austria

UNIGIS Zagreb, Croatia

Universidad San Francisco de Quito, Ecuador

Obuda University, Alba Regia Faculty, Hungary

Goa University, India

Madras University Chennai, India

Austria-Central Asia Centre for GIScience Bishkek, Kyrgyzstan

Kathmandu Forestry College, Nepal

Vrije Universiteit Amsterdam, The Netherlands

Jagiellonian University Kraków, Poland

Universidade Nova de Lisboa, Portugal

Universitat de Girona, Spain

Manchester Metropolitan University, University of Salford, UK

University of Southern California, USA

UNIGIS
IS DEDICATED
TO ENHANCE
THE COMPETENCE
OF GIS PROFESSIONALS
